

AdvancED Performance Accreditation and the Engagement Review for Visitation of Our Lady

Accreditation is pivotal to leveraging education quality and continuous improvement. Using a set of rigorous research based standards, the accreditation process examines the whole institution—the program, the cultural context and the community of stakeholders—to determine how well the parts work together to meet the needs of learners. Through the AdvancED Accreditation Process, highly skilled and trained Engagement Review Teams gather first-hand evidence and information pertinent to evaluating an institution’s performance against the research-based AdvancED Performance Standards. Using these Standards, Engagement Review Teams assess the quality of learning environments to gain valuable insights and target improvements in teaching and learning. AdvancED provides Standards that are tailored for all education providers so that the benefits of accreditation are universal across the education community.

Through a comprehensive review of evidence and information, our experts gain a broad understanding of institution quality. Using the Standards, the review team provides valuable feedback to institutions that helps to focus and guide each institution’s improvement journey. Valuable evidence and information from other stakeholders, including students, also is obtained through interviews, surveys and additional activities.

Effective Learning Environments Observation Tool® (eleot®) Results

The eProve™ Effective Learning Environments Observation Tool® (eleot®) is a learner-centric classroom observation tool that comprises 28 items organized in seven environments aligned with the AdvancED Standards. The eleot provides useful, relevant, structured, and quantifiable data on the extent to which students are engaged in activities and/or demonstrate knowledge, attitudes, and/or dispositions that are conducive to effective learning. Classroom observations are conducted for a minimum of 20 minutes. Results from eleot are reported on a scale of one to four based on the degree and quality of the engagement.

Accreditation Recommendation/Index of Educational Quality™ (IEQ™)

The Engagement Review Team recommends to the AdvancED Accreditation Commission that the institution earns the distinction of accreditation for a five-year term. AdvancED will review the results of the Engagement Review to make a final determination, including the appropriate next steps for the institution in response to these findings.

AdvancED provides the Index of Education Quality™ (IEQ™) as a holistic measure of overall performance based on a comprehensive set of standards and review criteria. A formative tool for improvement, it identifies areas of success as well as areas in need of focus. The IEQ is comprised of the Standards Diagnostic ratings from the three Domains: 1) Leadership Capacity; 2) Learning Capacity; and

3) Resource Capacity and the results of eleot classroom observations. The IEQ results are reported on a scale of 100 to 400 and provides information about how the institution is performing compared to expected criteria.

	VOL's IEQ Average	AdvancED IEQ Average
Overall IEQ	351.58	278.34

AdvancED Standards Diagnostic Results

The AdvancED Performance Standards Diagnostic is used by the Engagement Review Team to evaluate the institution's effectiveness based on AdvancED's Performance Standards. The diagnostic consists of three components built around each of the three Domains: **Leadership Capacity**, **Learning Capacity** and **Resource Capacity**. Point values are established within the diagnostic and a percentage of the points earned by the institution for each Standard is calculated from the point values for each Standard.

Leadership Capacity Domain

The capacity of leadership to ensure an institution's progress toward its stated objectives is an essential element of organizational effectiveness. An institution's leadership capacity includes the fidelity and commitment to its purpose and direction; the effectiveness of governance and leadership to enable the institution to realize its stated objectives; the ability to engage and involve stakeholders in meaningful and productive ways; and the capacity to implement strategies that improve learner and educator performance.

Learning Capacity Domain

The impact of teaching and learning on student achievement and success is the primary expectation of every institution. An effective learning culture is characterized by positive and productive teacher/learner relationships; high expectations and standards; a challenging and engaging curriculum; quality instruction and comprehensive support that enable all learners to be successful; and assessment practices (formative and summative) that monitor and measure learner progress and achievement. Moreover, a quality institution evaluates the impact of its learning culture, including all programs and support services, and adjusts accordingly.

Resource Capacity Domain

The use and distribution of resources support the stated mission of the institution. Institutions ensure that resources are distributed and utilized equitably so that the needs of all learners are adequately and effectively addressed. The utilization of resources includes support for professional learning for all staff. The institution examines the allocation and use of resources to ensure appropriate levels of funding, sustainability, organizational effectiveness, and increased student learning.

Findings

The chart below provides an overview of the institution ratings across the three Domains.
